

# Artificial Intelligence II

PROJECTS

WS 19-20

# Project 1: Ghostbusters

- We are reusing projects of UC Berkeley.
- Implementation in Python.
- Source code and project details are available at:
  - <https://inst.eecs.berkeley.edu/~cs188/fa18/project4.html>
- Files to edit:
  - `BustersAgents.py`
  - `Inference.py`
- Kindly update only the required functions while keeping other code intact.
- You need to submit `ghostbusters.token`, generated by running `submission_autograder.py`

# Organization

- Bonus credit of 0.3 on successful completion of the projects.
- You may participate individually or in group of 2 persons.
- Kindly send your solution to '[zaina@l3s.de](mailto:zaina@l3s.de)'.
- Subject line of the email: **AI2Project1: [your name(s)]**.
- Email must have your **matriculation number(s)**.
- Submission no later than: **10.01.2020, 2:00 pm**.
